Target Industries

In collaboration with SRI International, a nonprofit research institute, Las Vegas Global Economic Alliance (LVGEA) has released a Target Industry Validation Study to facilitate intentional economic growth and diversification in Southern Nevada.

Prior to the COVID-19 pandemic, the Southern Nevada economy was gradually becoming more diverse and seeing consistent job growth. Much of that momentum, however, ground to a halt as a result of the pandemic.

Although Nevada's economic climate has changed since the last target industry study was released in 2017, data showed many components of the previous target industries remain relevant and have therefore been incorporated within the newly identified adjacent industries. Additionally, SRI has identified key sub-industries within each target industry to represent different operational areas. Through SRI's analysis, the following seven industries and component industries were recommended to ensure growth and economic success for Southern Nevada:

LVGEA PLANNING PROCESS

The Las Vegas Global Economic Alliance (LVGEA) is a 501(c)6 membership organization dedicated to diversifying the economies of Las Vegas, Clark County, Henderson, North Las Vegas, Boulder City, Laughlin and Mesquite. For over 60 years, LVGEA has focused on diversifying and improving the economy in Southern Nevada through regional cooperation, connectivity and community development.

As the Regional Development Authority in Southern Nevada, LVGEA's mission is to facilitate economic growth through aggressive business recruitment, retention and outreach. This Action Plan is the product of an iterative process between the staff of the LVGEA, the LVGEA Strategic Planning Committee, and the LVGEA Board of Directors.

The Action Plan was developed to complement Southern Nevada's Comprehensive Economic Development Strategy (CEDS), the region's only U.S. Economic Development Administration-Approved strategy for economic development. Collectively, our planning and budget documents are designed to guide LVGEA's efforts to strengthen and diversify Southern Nevada through 2022.

LVGEA has been designated as one of eight Regional Development Authorities (RDA) in Nevada by the Governor's Office of Economic Development (GOED) for 2021-2022. Each RDA receives oversight and major financial support from GOED.

Goal 1: Economic Development

LEAD, FACILITATE AND STEWARD REGIONAL ECONOMIC DEVELOPMENT

Southern Nevada's economic and job losses led the nation during the pandemic. However in 2021, record-breaking company expansions in our region illustrated unprecedented growth in our target industries. By marketing the region's physical and human assets through a data-driven, collaborative approach we are positively impacting our people and our future.
